## PROFILE

---

A persistent control engineer with a passion for robotics and software engineering. I adore making stuff, as hobbyist I do woodworking and make bicycles. At an employer, I would like to work on process automation through software development. It is important to me who profits from the software delivered. In groups, I am an initiator and often take a managerial role because I enjoy overseeing the progress of the project. My character traits can be summarized as eager to learn, enthusiastic and social.
